

# 10 reasons to download the AIG Travel Protect App

**1. Direct Emergency Assistance:** Press the SOS button to quickly connect with your provider, ensuring fast, detailed advice and, if required, in country assistance. You can also access local emergency numbers.

**2. Comprehensive Travel Guides:** Access detailed information on your destination, including risk levels, health advisories, and medical facilities, helping to make every trip safer.

**3. Your Travel Companion:** Stay organized with a comprehensive view of your travel bookings, set up alerts related to your journey, access your assistance ID card, and insurance certificates.

**4. Instant Alerts:** Receive global and local updates in moments of crisis, advising on safety precautions and immediate actions, helping to keep you safe.

**5. Precision Privacy Controls:** Tailor your location settings with "Exact, City or Region" for personalized alerts, enhancing your safety with the flexibility to adjust anytime. In emergencies, the SOS button ensures your exact location is instantly known.

**6. Medical & Drug Brand Database:** Access to a library of verified information about medical conditions and drug brand equivalency.

**7. Security Awareness Training:** Access e-learning modules to learn more on travel risks.

**8. Local News in Your Language:** Stay informed with accessible local news in your language, allowing you to adapt to new surroundings seamlessly.

**9. Currency Converter:** Navigate financial transactions effortlessly with up-to-date exchange rates, helping to ensure you always get the best deal.

**10. Shareable Location Feature:** Easily share your location to your employer, reassuring them you are safe, informed and receiving the assistance you need.

**Download the AIG Travel Protect App** to embrace a world where assistance and advice are always just a click away. Helping keep every journey safe and supported.
